I don't know if you've gotten my e-mail or not, but I'll try again. This may not be the best way to contact you, and I certainly apologize. We were wondering if you would be willing to create a document to help insure that your pipeline to the gas and power business can get what it needs on a real-time basis. You may already be doing that, but we don't know. The document could also help us address the concerns of our counterparties who are getting paid late to us because they can't get an answer to a question they have in the pipeline. It's very important to us that your gas and power business is able to get what it needs when it needs it. If you do not want to take on that burden and responsibility, we'll find another set of eyes to do it. I'm willing to be a go-between and work with your people to come up with a solution. I am sending you a quick resume for your review. If you have any questions please call me at x30693. Thanks, Steve - rc2morgan.pdfQ: Was Chief Tarrant a 'in-joke' or a 'real' entity? According to an article posted shortly after the completion of the film (the link is dead), the actress who played the role (Kristen Johnston 3da54e8ca3
