TESLA 3000 features a recorder, analog input isolation modules and a control panel user interface that help you retrieve and manage records, as well as to display real-time measured values. 100W single power amplifier with 3x detachable 15mA 12V power supply for Midi cables MIDI16 The MIDI16 is a single-channel 100W constant-power MIDI audio amplifier with a detachable 3 x15mA (J2) power supply. The MIDI16 has a built-in power supply with an audio input/output and a USB MIDI output. These 3 outputs are not displayed on the display, as these outputs are outputting MIDI (serial) information. 13000 series MIDI/USB is a single channel MIDI input/output The 13000 Series is MIDI/USB converter designed as a compact interface for sending and receiving MIDI signals and USB signals. The 13000 Series is powered by supplied battery, and has a USB interface that can be powered by the USB port of your computer. FPT-15 is a power transformer that transforms 9V alkaline battery to 15V DC. FPT-15 can be used as power for portable equipment, such as portable PA system, power amplifier, external clock, solar panel and the like. The HYT2-M FPT-2 is a AC/DC rectifier module, inverter module, and power transformer. The Hybrid inverter module outputs AC voltage (220V, 115V, and 24V) of high quality. The M series is used for rectification, switching, and charging 5V, 12V and 24V batteries. The M series is a compact module used for general purpose, instrument, professional audio, alarm, and other audio/lighting equipment. This solution has the input of an environmental sensor and power module, that controls automatic turning off of the output when the input voltage or the output voltage reaches a preset value. After the output is shutdown, the environmental module saves the input values and the duration of shutdown. The module automatically restarts the output when the input voltage goes up to the preset value or when the output voltage goes up. The module also saves the data it gets from the sensor. The CAN-INJ controller is designed to operate in
