What's New In Intego Antivirus For Windows?

Intego AntiVirus (A.V.) is one of the most popular antivirus software, has become a must-have for PCs. Intego AntiVirus has a different approach to antivirus and antimalware protection. We believe that the user's everyday activities are quite sufficient to protect your computer. Intego AntiVirus software does not require any of the usual steps (computers are not like cars where you need to take a bath for repairs!). Intego AntiVirus helps to protect against software, files and website attacks so that you can continue your work while the computer takes care of the rest. Intego AntiVirus is a dual-

protection software that allows you to remove the malicious software (AntiVirus), at the same time providing system-level protection by way of firewall, anti-malware, anti-spyware, and anti-exploit tools. Intego AntiVirus offers multiple solutions to fit every PC:

- * AntiVirus functions -- remove and prevent malware which spreads via email or the web
- * System Protection functions -- control traffic sent to the net, block dangerous websites, secure the system
- * Network Protection functions -- set up rules to control traffic sent via the internet, set up rules to block child pornography and other malware exploits
