Create a strategic sea battle, the blueprint, that is randomly generated, and enjoy naval battles with friends. Other features: Communication: * There are various kinds of warships according to the stages of the game. * The blueprint is randomly generated. * You can also communicate with other players, obtain new information about the world. * You can chat with other players, or communicate with others about certain issues. World management: * There is a "mining hole" that you can mine. * You can visit the mines and bring it back to the land. * You can get resources that can replenish materials on land. * You can place factories in the ports of the world and produce weapons, armament, and ships. * You can manage a high level of ports in a world. * There are various resources on land and in the sea. Combat: * Construction can be used to construct ships, which can be armed and used for combat. * A cannon can be operated to shoot at enemies. * A cannon can also be used to shoot at the enemy ammunition to destroy it. * You can operate a cannon. To begin with, there are only two cannons, but later there will be many. * You can order naval battleships, which have a cannon on the rear, for special operations on land. * You can let your ship maneuver on land and swim. * The war zone will be randomly generated. * If you can defeat a warship, it will be added to your crew. * The crew is the material that determines the performance and combat ability of the warship. The better the crew, the better the warship's performance. Play: * The game begins with a blueprint and a free port. * If you earn wealth, your maritime trade empire will expand. * You can acquire new blueprints, and add new warships to your fleet. * You can communicate with other players, and exchange blueprints and ships. * You can visit the ports and mines in the world. * You can also manage your civilization. * You can work for your own prosperity, fight wars, and visit the mine and port of other players. Help: * How to play game * Search for the Android version of the game * Change the language of the game * Write your review if you like the game! Best regards, The Henand (leader
